Air Techniques, Inc. Expands Product Manager Support

August 31, 2021 - MELVILLE, NY: [Air Techniques, Inc.](#), a leading innovator and manufacturer of dental equipment has announced Mr. Chris Wilson as Business Development Manager and Mr. Daniel Shoemaker as Product Manager [Equipment](#) & [Clinical Systems](#). Mr. Wilson will be primarily responsible for Air Techniques' [Double Nasal Hoods and Scavenging Circuits](#) for Nitrous Oxide, the manufactures newest product line. While Mr. Shoemaker will support Air Techniques' leading product line of Utility Systems, Clinical Systems, and Dental Medical Gas Safety.

Mr. Wilson has an extensive background in the dental and medical industry with over three decades of experience. Mr. Wilson is an industry veteran and has held key roles within the Dental Nitrous Oxide/Oxygen industry. Chris will leads Air Techniques' newest product line of [Nitrous Oxide/Oxygen Nasal Hoods and Scavenging Circuits](#). As one of the dental industry's most well-known sources on this topic for education, installation, and development, Mr. Wilson is well respected by clinical practitioners, dealers, and their sales representatives.

"I'm excited to join the Air Techniques team and look forward to growing this new product offering for the company. Air Techniques is a market leader, and its longevity within the dental industry makes me motivated for my role within the organization," stated Mr. Wilson.

Mr. Shoemaker is an expert in his own right within the dental industry and joins Air Techniques in a key role that will support vital product lines while also providing insight into their latest line of Nitrous Oxide products. Daniel joined the dental industry nearly five decades ago and has held various positions, from Service, Sales, Regional Manager and in product development. In addition, he has educated the field by lecturing on the topics of Dental Vacuum, Air, and Nitrous Oxide/Oxygen Systems, and is a current member of the NFPA 99 *sub-committee on medical gas piping*, as well as serving on several other committees.

"Air Techniques product lines are proven unique and reliable," stated Mr. Shoemaker. I am looking forward to help move the needle and supporting these products in a positive way, for many years to come."
