**AIR**  
**TECHNIQUES** equipped for life<sup>®</sup>

# An Effective Solution for Complete Disinfection

## Kills a broad spectrum of pathogens in just 1 minute

- Efficacy tests have demonstrated that Monarch Surface Disinfectants are an effective, virucide, bactericide, tuberculocide and fungicide in the presence of organic soil.
- One-step, cleaner & disinfectant saves time.

## Fast and efficient application

- One minute contact time allows for faster patient transition.
- Compatible with virtually all surfaces in the dental office.
- Helps prevent cross-contamination from contact with treated surfaces.

## Gentle

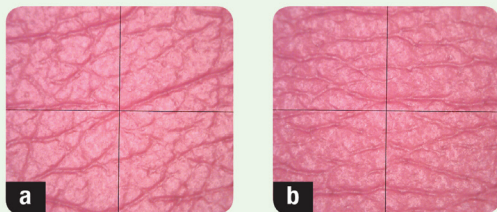

- EPA approved with a low toxicity rating.
- Non-irritating to skin, Non-corrosive and non-staining.
- Fragrance-free and bleach-free formula doesn't leave an offensive odor and dries without a residue.
- Safe to use on dental chair upholstery made of non-porous vinyl.

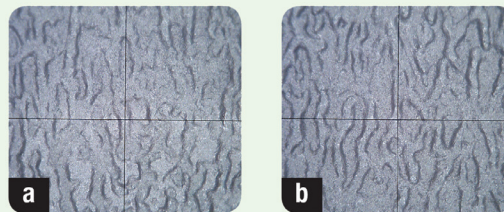

“Because Monarch products are easy to use and produce predictable results, any of our team members can step in and help turn over the operatory at any time.”

**Carolyn Miskell,**  
Practice Director

A study performed by the **Dental Advisor** examined the effects caused by an accelerated 5-year interaction between *Ultraleather* and *Dauphine* dental chair upholstery and *Monarch Surface Disinfectant Wipes*. No visible changes in appearance were observed for either fabric treated with *Monarch Surface Disinfectant Wipes*.
